

# BRITISH RETAIL CONSORTIUM (BRC) ISSUE 7

GLOBAL STANDARD FOR FOOD SAFETY

**BRC is an internationally recognised standard for food manufacturers aimed at assisting them in producing safe, quality products.**

## Our services

Intertek can work in partnership with you to ensure your company reaches the high level of competency in food safety and the BRC demands.

With our help and support your organisation can become certified and publicly recognised for your concern and attention to food quality, legality and safety.

Intertek is accredited to successfully certify your organisation according to the requirements of the BRC Global Standard for Food Safety, Consumer Products and the IoP Packaging Standard.

**We work with you to address the Issue 7 requirements in each of the key areas:**

- Senior Management Commitment
- HACCP
- Food Safety and Quality Management System
- Site Standards
- Product and Process Control
- Personnel

## Benefiting you

**BRC is an internationally recognised standard for the manufacturing of food products, is Global Food Safety Initiative (GFSI) acknowledged, and:**

- Promotes food safety and quality
- Safeguards your brand's reputation
- Food Safety and Quality Management System
- Installs customer confidence
- Reduces the need for multiple audits
- Pro-actively improves processes saving you valuable time and resources
- Encompasses all levels of the manufacturing food chain
- Worldwide recognised certification programme
- Monitors your identified key processes and ensures engagement at all levels of your organization

## With you all the way

**We are also a BRC-approved training establishment and conduct various training courses across the globe, including:**

- Third party auditor training "How to Implement the Standard"
- Implementation of the Food Standard to your business

- Upgrading of the standard from Issue 6 to 7 into your business operations seamlessly

At Intertek our experts can provide you with a wide range of both physical and analytical testing as well as certification services to meet your ever-changing needs.

We can also offer bundled food audits to save you both time and money within your supply chain.
